SALESPAD® BY CAVALLO + BLUE MOON

BLUE MOON INTEGRATION

Make your entire operation seamless

The Perfect Fit for Your Needs

Streamline your business operations with the SalesPad® Blue Moon Integration. Maximize your efficiency and minimize human error by automating processes like releasing documents, purchase orders, and inventory items to the WMS.

Track the status of a sales document, lock it while it is being processed, and set fulfillment options for sales documents. Leverage total control, customization, and visibility over all aspects of your business.

"SalesPad® is a powerful tool that provides small to mid-sized businesses with the functionality they need to streamline their operations and grow their business. As a Microsoft Partner and prior end user, I recommend SalesPad to businesses looking to enhance their [...] system and optimize [...] processes."

- Kristen Hosman, President of Mount Evans Consulting

Blue Moon

Blue Moon Industries provides critical accounting and distribution functionality and workflow process improvements that help you maximize efficiency at every turn. Choose from scalable warehouse options, expanded EDI capabilities, and more solutions to enhance and streamline your operation.

Key Features

- **Auto Release:** Enable notifications every time a sales document is released to a specific queue, a purchase order is saved, or an item number is created or updated.

- **WMS Status and Lock:** Keep track of the status of sales orders that have been sent to the WMS.

- **Fulfillment Options:** View and edit data like priority and payment type for sales documents.

- **Shipment Inquiry:** View shipment and package information related to sales orders.

- **Quick Report Shipment Search:** Search existing shipments and their relative sales orders.
