

SHIPPING INTEGRATIONS

Streamlined, centralized shipping operations

Shipping Made Simple, No Matter How You Do It

Track and manage shipping operations while keeping customer, inventory, and shipping data easily accessible under one program. The SalesPad® shipping integrations streamline the fulfillment to shipping transition, and ensure accuracy by integrating between your complete distribution operations solution and your chosen carrier—no need to switch screens or open a new application.

Leverage complete visibility and control over every part of your shipping processes without the hassle of having to piece together information from multiple systems.

Eliminate data silos

Fully integrate into a single system

Get more order out the door faster

Choose Your Carrier

SalesPad integrates with two of the world's largest shipping and logistics companies, FedEx and UPS. Experience fast and reliable delivery from express to ground to freight shipping with a carrier that meets all your business's needs.

Seamlessly integrates all of your FedEx and UPS shipping information directly within SalesPad®

Key Features

- Click and scan order numbers to import orders
- Process multiple sales documents in a single step
- Monitor ready-to-ship orders and prioritize them according to your needs
- Automatically update shipping information, freight amount, and tracking information on sales documents
- Create and print shipping labels
- Track shipments

Expand Your Capabilities

When paired with SalesPad, take advantage of the workflow feature to set up automation and write costs and tracking numbers to sales orders without having to lift a finger. This feature also makes batch shipping a snap—process multiple shipments at once without sacrificing accuracy.

“The main things that stood out [concerning SalesPad®] were the workflows that are so customizable, plus the ability to incorporate additional products, such as...the FedEx and UPS [integrations]. It wasn't just a front-end hat that sits on Dynamics GP, it was so much more than that. We love it.”

- **Paul Cosaro**, Managing Partner at Picnic Time
