

INVENTORY MANAGER

Ensure 100% order accuracy every time

What is Inventory Manager?

Inventory Manager is your answer to facilitating fail-proof inventory operations. This barcoding tool syncs with your software solution to ensure 100% accuracy in picking, packing, and transferring inventory processes. Scan and print barcodes with ease, and seamlessly plug Inventory Manager's data into your distribution software solution for a user experience that's powerfully straightforward. Bring action and analysis into one interface, so you can manage active orders or keep tabs on inventory while it's still on the shelves.

You should use Inventory Manager if:

- Your staff has trouble with human error and inaccurate orders, and want to reduce return rates
- Your picking and packing process is mostly manual
- Inventory visibility is limited and stock counts are unreliable
- You're looking to avoid inventory-related issues like large write offs, negative counts, and mishipments

What does it look like in action?

Inventory Manager is optimized for distributors to attain total accuracy in their warehousing processes, setting the foundation for true inventory visibility and saving users major cash by avoiding mispicked and returned items. Users can scan products to get accurate stock counts every time, receive purchase orders and automatically create receipts, make inventory

adjustments, take stock counts, and much more. This module is accessible on the mobile device of your choice, making it easy to carry around the warehouse.

Inventory Manager Essentials also comes

equipped with:

- Inventory picking, packing, and receiving capabilities
- Inventory transfers
- Warehouse rules
- License plating
- Batch and wave picking
- Barcode printing

How can I expand my software tool kit?

Inventory Manager is just one tool in your distribution software tool kit. Build out your complete distribution software solution with Cavallo's additional features and modules — including next-level functionality like automated tasks and workflow, CRM tools, EDI, and more. Elevate every process of your distribution management, from selling to order fulfillment to shipping and payment collection, and accelerate their efficiency by uniting them under one powerfully flexible solution.
