CAVALLO®

KPI DASHBOARD

Gain total visibility of your business performance

What is Cavallo's KPI Dashboard?

The Cavallo® KPI Dashboard is a game-changing tool for evaluating many different aspects of your business. Effectively assess your most important KPIs, identify trends both favorable and unfavorable within your company, and determine how you need to change course.

You should use KPI Dashboard if:

– You want a convenient way to organize and view your KPIs

– You're interested in digging deeper into your KPI trends

– You want 100% visibility of the state of your business

What does it look like in action?

KPI Dashboard provides a comprehensive view of key business metrics, with meaningful insights clearly visible, such as orders shipped, average order shipped, margin shipped, and so on. You can also click any each KPI for a more in-depth view, and apply one of the many dynamic filters available in the dashboard—including customer class and sales rep—to find the exact information you need.

How can I expand my software tool kit?

Cavallo's KPI Dashboard is just one tool in your distribution software tool kit. Build out your complete distribution software solution with Cavallo's additional features and modules — including next-level functionality like automated tasks and workflow, CRM tools, EDI, barcoding, and plenty more. Elevate every process of your distribution management, from selling to order fulfillment to shipping and payment collection, and accelerate their efficiency by uniting them under one powerfully flexible solution.
