

ORDER MANAGEMENT DASHBOARD

Complete customization, complete visibility

What is Cavallo Order Management Dashboard?

Cavallo® Order Management Dashboard provides users with clear visibility of their business, tailored to meet each user's specific needs. See where all your documents are within your overall process, and achieve ultimate data organization. Order Management Dashboard provides the personalized interface necessary to better understand, and thus act on your business data.

You should use Order Management Dashboard if:

- You need greater visibility into your ERP
- You want to increase your gross margin
- You want to identify opportunities for growth and improvements

What does it look like in action?

Order Management Dashboard allows users to customize the columns and fields to meet their specific needs, and to view documents that meet certain criteria. With its simple setup, Order Management Dashboard's time to value is incredibly fast. After easily downloading and installing the dashboard, you'll quickly experience the benefits of this tool. Use the dashboard as a standalone product, utilizing the built-in workflow that draws from your ERP, or combine it with Cavallo's Order Entry and Order Management Workflow solutions, which allow for 100% visibility into your documents at every stage of the business process, and ensure that none of them will slip through the cracks.

How can I expand my software tool kit?

Order Management Dashboard for Microsoft Dynamics 365 Business Central is just one tool in your software tool kit. Build out your complete software solution with Cavallo's additional features and modules for Business Central — including next-level functionality like order entry, customer management, credit card processing, and process analytics. Elevate every process of your distribution management and accelerate their efficiency by uniting them under one powerfully flexible solution.
