

CAVALLO

# PROFIT MAXIMIZATION FOR **MICROSOFT DYNAMICS 365 F&O**

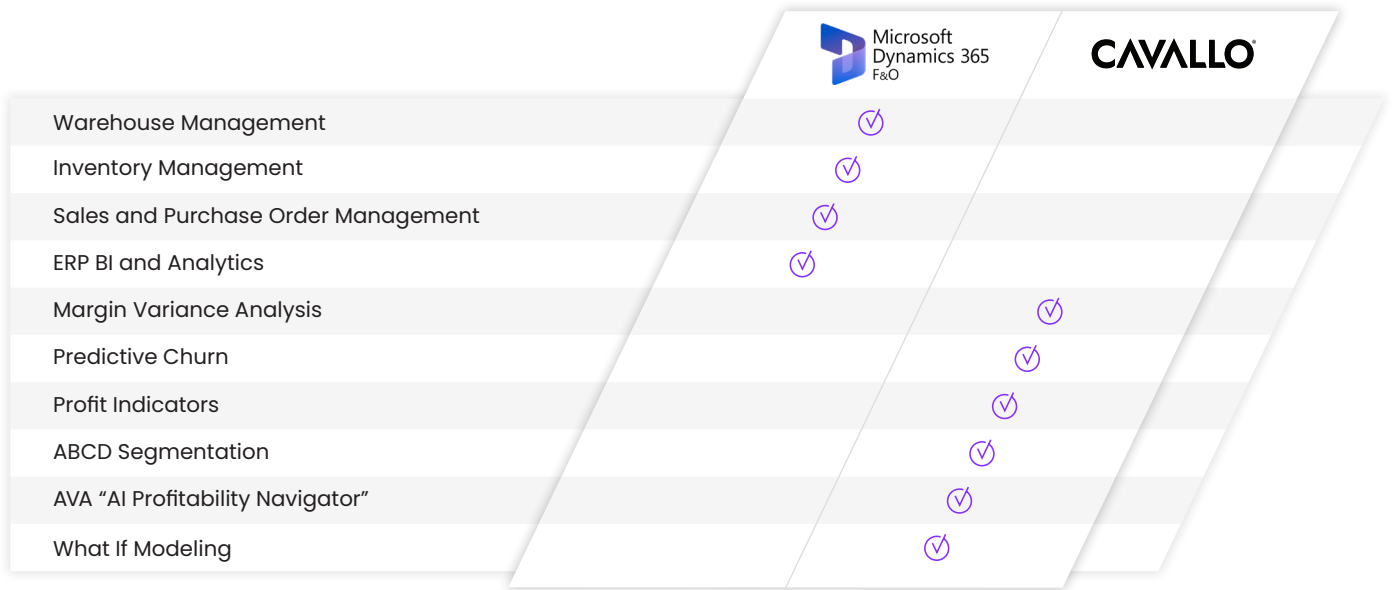

Transform historical data  
into unmatched profit  
opportunities.

Unlock real-time insights into every  
margin leak — and stop them in their  
tracks. Transform massive datasets within  
your ERP into a profit-driving powerhouse  
that delivers full visibility across your order  
lifecycle while eliminating errors before they  
impact your bottom line.

## Unlock the Power of Profit Maximization for Microsoft Dynamics 365 F&O

Profit Max Platform™ is built to supercharge your profits, giving you unmatched control over your orders.

- **Harness billions of data points** to uncover margin trends and hidden profit gaps that directly impact your bottom line.
- **Unleash the full potential of your ERP** with powerful, pre-built visualizations for variance, item, customer, and KPI trend analysis.
- **Expose actionable insights** to zero in on the factors driving margin performance — empowering you to act fast and boost profits.

### Profit Max Platform™

Leverage data to analyze customer trends, optimize pricing, and master gross margin variance analysis. With this solution, you can spot margin leaks the moment they appear, keeping profits intact and on track and proactively pinpointing and tackling the root causes of erosion.

*"I used customer churn, days since last order, and size of order to identify who to contact. This has led to my most successful [marketing] campaign ever."*

– Jason Jasperson, Executive Vice President, National Band Saw
