PRICING

Customize your pricing options

What is SalesPad Pricing?

This module plugs into SalesPad® software to allow users to modify and customize product prices. Incentivize returning customers with specialized discounts, apply customized offers with aggregate pricing, and input specialized project costs with ease.

You should use Pricing if:

- Your current pricing options are limited
- Your company works on custom or specialized projects
- You want to incentivize regular customers with discounts

What does it look like in action?

This customizable pricing module allows users to apply unique prices to specific items or quantities of items, and even personalize costs to specific customers by selecting a duration and discount rate on the customer's information card. Leverage this tool for promotions and contract pricing, as well as group-based and customer-specific pricing — all while tracking the status of each order. Reduce your typical quoting time by 50% with clear visibility over past prices and inventory availability.

How can I expand my software tool kit?

SalesPad's Pricing module is just one tool in your distribution software toolkit. Build out your complete distribution software solution with SalesPad's additional features and modules — including next-level functionality like CRM tools, EDI, barcoding, and more. Elevate every process of your distribution management, from selling to order fulfillment to shipping and payment collection, and accelerate their efficiency by uniting them under one powerfully flexible solution.
