

ORDER ENTRY

Simplify and optimize your order entry process

What is Cavallo Order Entry?

Cavallo® Order Entry maximizes your efficiency by saving you valuable time in entering and looking up order, item, and customer information. Its user-friendly interface cuts down on the time spent searching your inventory or customer database, and provides quick visibility and personalization that meets your specific needs.

You should use Order Entry if:

- You want to save time and simplify your order entry process
- You want to increase your efficiency and raise customer satisfaction
- You want all your customer and inventory information to be easily accessible

What does it look like in action?

With Order Entry, users can enter quotes, orders, and any necessary documents, as well as configure the header to their liking. The inventory lookup feature allows for complete visibility into your inventory, including items that are on hand, allocated, available, and backordered. Meanwhile, the activity log keeps track of all changes made to a document so nothing slips through the cracks.

Order Entry can combine with other Cavallo Products:

- Order Management Workflow
- Order Management Dashboard
- Customer Management
- Credit Card Processing

How can I expand my software tool kit?

Order Entry for Microsoft Dynamics 365 Business Central is just one tool in your software tool kit. Build out your complete software solution with Cavallo's additional features and modules for Business Central — including next-level functionality like customer management, credit card processing, and process analytics. Elevate every process of your distribution management and accelerate their efficiency by uniting them under one powerfully flexible solution.
